# BARRACKS

## 54MM TOY AND MODEL SOLDIERS

## CATALOGUE
## 2002

PRICE
£3.00

Welcome to the Barracks a range of 54mm model soldiers.
The figures cover the period from the late 19th century to the present day.
Most of our figures are from the North West Frontier to the early years of the First World War.

All military figures are in service dress.
All the castings come from masters crafted by some of Britain's finest model sculptors.
Most of the figures are available in a variety of positions.

Barracks has now being running for four years and the range of figures has grown steadily over this time and I hope to carry this on in the future.
This year we have introduced some Boer figures as well as Afghan and Zulu figures.

This Catalogue is split into two sections:-
Section 1:- Painted sets and figures.
Section 2:- Castings
